## SUMMARY

Highly skilled and experienced software architect with 10+ years of experience designing and implementing scalable, high-performance software systems for a diverse range of clients.

Proficient in a variety of programming languages and platforms, with a strong understanding of software design principles, system architecture, and cloud computing.

Successfully led cross-functional international teams in delivering high-quality projects within defined timelines and budgets.

Enjoys coding and is passionate about writing high-quality, efficient code.

## HARD SKILLS

.NET, .NET Core, Java, JavaScript, TypeScript

Asp.Net, Entity Framework, Asp.Net Web Forms, Asp.Net MVC

Azure, GCP, Docker, Kubernetes

SaaS, PaaS, IaaS

Azure SQL, Azure App Services, Azure Container Apps, Azure Cosmos DB

MS SQL, PostgreSQL, Oracle

Google Cloud Run, Google Kubernetes Engine, Firebase

React, Angular, RxJS

Azure DevOps, GitHub, TeamCity

Veracode, SonarQube

## SOFT SKILLS

Team leading 10+ FTE	Interviewing Candidates
Project Management 30+ FTE	Cross team's communication
Technical Design and Documentation	Agile, Scrum, Waterfall, Kanban
Architecture Definition	Negotiations, Decision Making
Presales & Estimations	Architecture Review
Requirement Gathering	Security Review

## MAJOR PROJECTS

Project	Chief Architect
Description	Chief Architect of company
Customer	Proxet
Period	April 2018 – till now
Technologies	.NET, Java, Python, Javascript
Role	Chief Architect
Responsibilities	Presales preparation, Architecture prototyping, Project bootstrapping, Project Estimation, Architecture Review, Legacy system assessments

Project	IDIQ Platform
Description	Identity Theft and Credit Monitoring platform
Customer	IDIQ via Proxet
Period	Nov 2021 – Oct 2022
Technologies	.Net 6, GCP, Cloud Run, Google Pub/Sub, React
Role	Software Architect
Responsibilities	Bootstrap team, Legacy architecture review, Security review, Prepared and started Monolith to Microservices architecture redesign

<b>Project</b>	<b>Video Advertising Streaming Platform</b>
Description	Advertising Assets and Campaigns Management software for retail business
Customer	Cooler Screens via Proxet
Period	Aug 2019 – Dec 2019
Technologies	.Net Core, C#, Azure, Angular
Role	Engineering Manager
Responsibilities	Bootstrap team, Prepare Architecture, Team leading, Project Management Deliver MVP in 45 days.

<b>Project</b>	<b>Insight 4.0</b>
Description	New generation of Medical Research Management Administration
Customer	Mass General Brigham via Proxet
Period	April 2016 – till now
Technologies	.NET 6, C#, MS SQL, ReactJS, Azure, Okta
Role	Software Architect, Project Manager
Responsibilities	Development process definition, Architecture definition and documentation, Project planning, People Management, Technical Decision Making

<b>Project</b>	<b>Electronic Bank Account Management</b>
Description	Electronic Bank Account Management for Enterprise clients
Customer	Citibank via Luxoft
Period	July 2013 – March 2016
Technologies	Java, Spring, Hibernate, IBM WebSphere, IBM BPM, Oracle, Adobe LiveCycle C#, Asp.Net MVC, Angular JS
Role	Development Manager, Software Architect
Responsibilities	Development process definition, Architecture definition and documentation, Coaching team members, Coordination of several teams: Java, .Net, BPM development. Architecture review.

<b>Project</b>	<b>Blogs Analysis</b>
Description	Analytic system used to analyse and monitor social networks and blogs. It gathers and analyses information from provider-based sources. Like Twitter, Facebook, etc.
Customer	Luxoft
Period	November 2010 – April 2013
Technologies	.NET, MS SQL, MEF, MVC, WCF, Sphinx Search Server
Role	Team Lead
Responsibilities	Team Leading, Architecture development, High load optimizations

<b>Project</b>	<b>Sana Commerce Framework</b>
Description	Framework for e-Commerce. Supports B2B, B2C and hybrid scenarios. In addition to framework also contains typical web shop and back-office as a product from a box.
Customer	ISM eCompany
Period	November 2007 - November 2010
Technologies	.NET, Asp.Net, WCF, Ajax, MS Dynamics Navision
Role	Lead developer, Team Lead
Responsibilities	Client web, server-side, framework development

## CERTIFICATIONS AND TRAININGS

Luxoft	7 Steps to Leadership
Luxoft	Hard and difficult negotiations
Luxoft	ARC-001 Software Architecture Methodology
Luxoft	ARC-004 Patterns of Enterprise Application Architecture
MCP (MCTS)	70-536 TS: Microsoft .NET Framework - Application Development Foundation
MCP (MCTS)	70-562 TS: Microsoft .NET Framework, ASP.NET Application Development

# EDUCATION

Year	Event	Location
2009	Graduated from Zhytomyr State Technological University (ZSTU) as Specialist in Software of the automated systems	Zhytomyr, Ukraine
